

## 2624 GRADING SYSTEM

The Board of Education recognizes that a system of measuring, recording, and reporting the achievements of individual students is important to the continuing process of learning.

The Board therefore directs that the instructional program of this school district include a system of grading that measures progress toward the New Jersey Student Learning Standards and the educational goals of the district.

Students shall be informed at the outset of any course of study of the behaviors and achievements that are expected of them and shall be kept informed of their progress during the course of study.

The Superintendent shall develop and continually review in consultation with teaching staff members, parents or legal guardians, and students, a grading program appropriate to the course of study and maturity of students. The final decision on any contested grade will be the responsibility of the principal. Students classified as disabled will be graded in accordance with their Individualized Educational Program (IEP) or the Section 504 Plan.
