

5430 CLASS RANK

Montgomery High School computes two averages for students. The first computation is an unweighted or "true" average for all courses attempted. The second is a weighted average to determine valedictorian, salutatorian and honor students (see Montgomery Township High School handbook located on the district website).

Class Rank

Montgomery High School does not engage in the automatic calculation and reporting of class rank for students. A pupil's class rank shall be calculated to determine valedictorian, salutatorian, and students graduating with honors. A pupil's class rank will only be released to a requesting institution (such as a service academy) or a scholarship provider.

Weighted GPA

A weighted GPA is computed to provide information for scholarships and to determine valedictorian, salutatorian, and students graduating with honors. It is calculated by adding 5 points to Honors and AP courses.

A pupil's grade point average will be entered on the pupil's record and will be subject to Board Policy 8330 on the release of pupil records.
